15 YEAR
Limited Warranty

Steel Entry Door

Featuring 24–26 gauge steel sheet, smooth surface and high–definition embossed panels, Fangda Door provides you a rich and beautiful look on durable steel entry door system.

Optional steel edge construction adds greater strength & durability.

Factory pre–painted steel facings ensure a consistent and lasting finish every time.

SFS-02 with SFG-L Glass, Brass

Engineered Construction

Engineered Wood Lock Reinforcement

Features & Benefits

- 24–26 gauged steel skin, **pre-finished white paint**
- Environmentally friendly polyurethane foam core offering double the R–value of polystyrene core
- Optional one piece polystyrene core at an economical price
- Rot-resistant top and bottom rails
- Solid wood lock block for reinforcement
- Ten-year limited warranty on door systems and 15–year limited warranty on finishing

Pre-painted door skin lasting for 15–year Finish Warranty.

Pre-painted steel skins maintain the bright white finish painted look. Each Fangda door is factory finished, it does not need additional painting.

Pre-finished 24–26 gauged hot-dipped galvanized **pre-painted** steel sheet is coated of high-durability polyester (HDP), which provides higher anti-corrosion property and longer lifespan than that of galvanized steel sheets.

The finish coat of HDP has excellent retention of color, resistance of ultra-violet radiation, strong outdoors durability, chalking resistance, strong adhesion to the base metal.

The coating layer of HDP has excellent resistance to shedding and chalking within such 15 years.

Blinds Between Insulate

Internal blinds provide the privacy and convenience of a cordless blind enclosed between glass. A single-hand operator opens, closes and tilts the blinds to control the desired level of privacy and light.

One easy accessible control allows the blinds to be easily adjusted for the amount of light and privacy.
